Health Benefits of Copper

- Keeps the Digestive System Healthy - Copper has many properties, which help to fight acidity, gas, constipation, etc. copper can detox your stomach and clean it properly by preventing the formation of waste and other harmful products.
- Helps in Weight Loss - Drinking water infused in copper gives an extra benefit as copper helps in the breakdown and elimination of fat cells in the body.
- Promotes Healthy Skin - Copper helps in attaining the perfect skin and also prevents your skin from the extra damage done by the sun and the UV rays. It is the prime constituent in the formation of melanin which helps in defining the colour of your eyes, hair, and skin.
- Anti-Bacterial Properties - Copper has antibacterial properties which make it very hostile for micro -organisms to survive on it as it is toxic to them while humans have no such threat at all.
- Slows down ageing - If you are worried about the appearance of fine lines on your face, copper is your natural remedy. Packed with very strong anti-oxidant and cell forming properties, copper fights off free radicals, one of the main reasons for the formation of fine lines.
- Mitigates the risk of cancer - Copper has very strong antioxidant properties that helps fight off free radicals and negate their ill effects – one of the main reasons for the development of cancer
